ADVISORY - READ BEFORE USING YOUR NES

A very small portion of the population may experience epileptic seizures when viewing certain kinds of flashing lights or patterns that are commonly present in our daily environment. These persons may experience seizures while watching some kinds of television pictures or playing certain video games. Players who have not had any previous seizures may nonetheless have an undetected epileptic condition. We suggest that you consult your physician if you have an epileptic condition or if you experience any of the following symptoms while playing video games: altered vision, muscle twitching, other involuntary movements, loss of awareness of your surroundings, mental confusion and/or convulsions.

WARNING: DO NOT USE WITH FRONT-OF-UNIT PROJECTION TV.

Do not use a front-of-unit projector television with your Nintendo Entertainment System® (NES) and NES games. Your projector television screen may be permanently damaged if the screen is watched with static or other screen patterns or patterns are played on your projection television. Similar damage may occur if you place a video game on hold or pause. If you use your projection television with NES games, Nintendo will not be liable for any damage. This situation is not caused by a defect in the NES or NES games; other static or repetitive images may cause similar damage to a projection television. Please contact your TV manufacturer for further information.

ONE HARE-RAISING ADVENTURE

In the darkest part of the Aniverse, K.O.M.P.L.E.X., the robotic master of all toads, gave the Toad Air Marshall orders to kidnap as many of the crew members of the Righteous Indignation as they could, and toss them into toad prisons throughout the Toad Empire, as part of an overall plan to destroy Captain Bucky O'Hare.

Deed-Eye Duck, Jenny the Aldebaran Cat, A.F.C. Blinky, and Earth Boy Willy DuWitt were captured by the toads. Only Bucky O'Hare escaped by a whisker. Now he must scour the Aniverse to rescue his comrades from the toad menace who has imprisoned them. Bucky knows full well that unless he acts fast, all the wart remover in Sector 37 won't save his crew. Then, and only then, can Bucky get back to his mission of infiltrating the Toad Magma Tanker and destroy it once and for all.

So Buck up. Load up your meser pistols and let's croak some toads!

HOW TO AVOID TOAD'L DISASTER.

Your mission is to assume the role of Bucky O'Hare, search the four toad infested planets to find and rescue your shipmates from the hopping mad Toad Air Marshall, destroy the Magma Tanker and escape with your fur intact.

Once you've rescued a comrade, you'll move to the next planet, until all four shipmates are back in the fold.

After rescuing a shipmate you can become that character at any time during the rest of the game. This is key to winning, as some stages cannot be completed without certain characters' unique abilities.

After rescuing Dead-Eye Duck, Jenny, Blinky, and Willy you will continue through four more stages in your quest to destroy the Toads and their

Magma Tanker. At the end of each stage you'll come face to face with a boss Toad menace, conquering him will take special skill and agility. Remember, one character's patented moves may be more effective than another's in each stage, so choose your characters carefully.

HIPPITY HOPPITY HINTS

Power-ups, life restorers, 1-ups and point bonuses abound throughout your mission. Many are hidden, so you'll have to blast away at innocent-looking objects to uncover them. These items are absolutely essential to keep your mission moving forward. Collect as many as you can!

You'll start out with three lives. You'll lose a life when one of three things happen: your life gauge reaches zero, you fall into a trap, or you fall off a cliff, into the sea, or into magma. When you've lost three lives the Game Over screen appears. Choose either CONTINUE, END, or STAGE SELECT with the CONTROL PAD, then press the START BUTTON.

When you select CONTINUE, you start from the beginning of the scene in the stage in which the game ended. There is no limit to the number of times you can CONTINUE. When you select END, you return to the title screen and start over.

When you choose STAGE SELECT, you go to the Stage Select screen. You may choose any stage [planet] that you have not cleared. Once you clear Stage 5, STAGE SELECT is no longer an option.

LET THE GAME BEGIN.

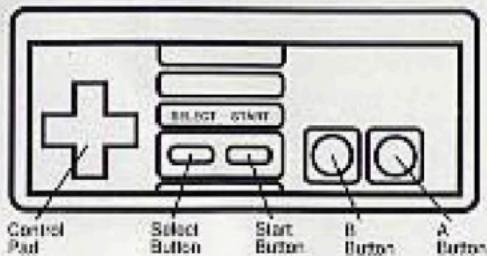

Insert your Game Pak into the NES and turn it on. Press the START BUTTON. Choose either GAME START or PASSWORD by pressing the SELECT BUTTON. Once you've made your choice, hit START. Press the A BUTTON to advance the text. When the Stage Select screen appears, choose one of the four planets by pressing the SELECT BUTTON. Press the START BUTTON to begin.

Once you've cleared the stage (planet) that you've selected, a password appears. Press the START BUTTON to return to the Stage Select screen. Select a new planet. You must clear each planet in order to move to the 5th, 6th, 7th and 8th stages.

If you select PASSWORD, press the START BUTTON. Spaces for your password will appear. Press the CONTROL PAD Up or Down to locate the correct letters. Press the CONTROL PAD Left or Right to move to the next space. After you finish entering the password, press the A BUTTON. If you have not cleared the first four stages [planets], the Stage Select screen will appear. If you have already cleared the four planets, you will go to the stage following the one you last completed. (If you use the PASSWORD to continue the game, your power-up functions are preserved.)

HOW TO MAINTAIN "SELF CONTROL"

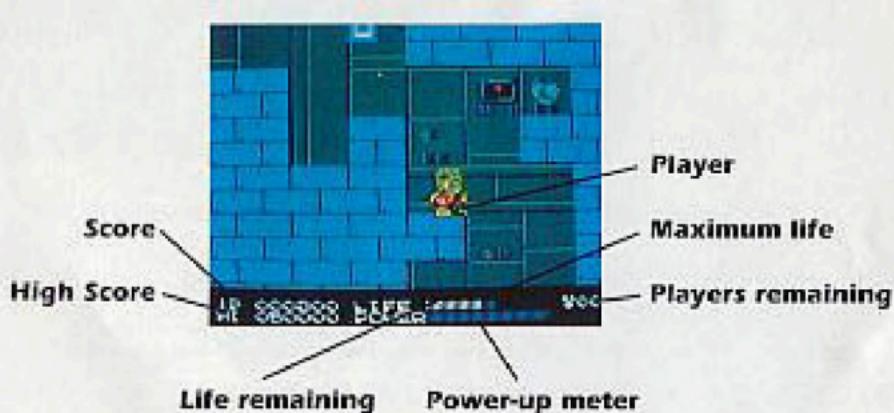

- START BUTTON** Press to begin and pause game.
- SELECT BUTTON** Press to change Player. (You can change at any time. You cannot change to a crew member that has not yet been rescued.)
- CONTROL PAD** Press to move Player - see pages 14-15 for details. (On slippery surfaces such as ice, stop the player by pressing Down.)
- A BUTTON** Press to jump.
- B BUTTON** Press to shoot. Also, hold down, then release, to access a crew member's unique ability. (See pages 14-15 for details on using them.)

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Recorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that computer and receiver are on different circuits

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful: How to Identify and Resolve Radio-TV Interference Problems. This booklet is available from the U.S. Government Printing Office, Washington, DC 20402, Stock No. 004-000-00345-4.

TREAT YOUR KONAMI GAME PAK CAREFULLY

- This KONAMI Game Pak is a precision-crafted device with complex electronic circuitry. Avoid subjecting it to undue shock or extremes in temperature. Never attempt to open or dismantle the cassette.
- Do not touch the terminal leads or allow them to come into contact with water or the game circuitry will be damaged.
- Always make sure your NES Control Deck is SWITCHED OFF when inserting the cassette or removing it from the NES Control Deck.
